

30/10/2023

David Flintoff  
SLURRYTUB  
27 Renny Street, Paddington  
NSW, 2021, Australia

Dear David,

This letter is to confirm that KM Tubular is in the process of an assessment to certify products under GECA's Claim Authentication service. The products that are to be authenticated are, with the claim:

*SLURRYTUB*

*"SLURRYTUB filters the sediment from cement slurry, allowing for safe disposal or recycling of the dried cement and cleared water."*

GECA cannot confirm that a certificate of conformance and subsequent GECA certification will be granted, only that the assessment process is in progress.

We would be happy to confirm this and update you and your potential suppliers on this process and outcome as necessary.

**Please note that this letter of intent is valid up to 30/04/2024.**

Please do not hesitate to contact us for more information and/or support as required.

Yours sincerely,

Josh Begbie
